

## SHARE Grants Distribution 2011

Each year SHARE gives grants to UnitingCare agencies and other community service groups throughout Victoria and Tasmania. These grants help to provide child and family support, youth and disability services, alcohol and drug rehabilitation, supported accommodation projects, aged care services and emergency relief. This year SHARE received 95 grant applications totalling \$1.5 million. In a year in which disasters have been top of mind for many, the generosity of the Uniting Church community has made it possible for us to distribute \$927,934, helping people in crisis in our communities.
